

THE TOP FIVE ADVANTAGES OF MANAGING COMPLEX COUNTERS IN WINAIR

5. SIMPLE PART TRACEABILITY

WITH WINAIR VERSION 7, IT IS EASY TO ACCESS COMPREHENSIVE AND PRECISE INFORMATION ON THE HISTORY OF ANY PART OR COMPONENT THAT REQUIRES COMPLEX COUNTERS. WINAIR USERS HAVE ACCESS TO A VARIETY OF REPORTS, INCLUDING A COMPONENT REPORT, PART NUMBER REPORT, AND PURCHASE HISTORY REPORT.

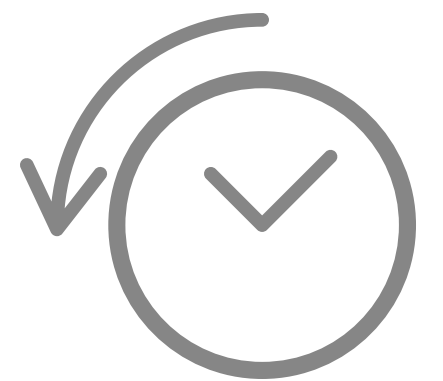

4. STREAMLINED PROCESSES AND EXPEDITED WORK STEPS

WHEN YOU'RE MANAGING COMPLEX COUNTERS IN WINAIR, YOU DON'T HAVE TO MAKE ANY EXTERNAL CALCULATIONS. EACH COMPLEX COUNTER REQUIRES ONLY A SINGLE SET-UP TO BE BUILT IN WINAIR. ONCE IT IS ADDED TO THE SYSTEM, IT IS AVAILABLE FLEET-WIDE.

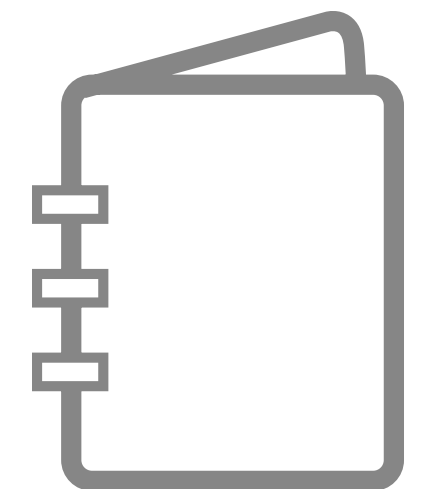

3. NO READJUSTING TO ACCOUNT FOR PENALTY FACTORS

BY AUTOMATING THE CALCULATION OF THESE COMPLEX FORMULAS IN THE BACK-END OF WINAIR BASED ON THE FLIGHT LOG INPUTS ENTERED INTO THE SYSTEM, USERS DO NOT NEED TO WORRY ABOUT ALTERING THESE FIGURES. RATHER, THROUGH PROCESS AUTOMATION, THEY ARE INSTANTLY UPDATED IN WINAIR.

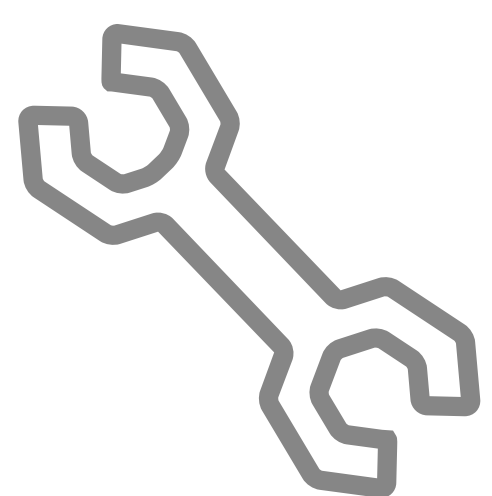

2. IMPROVED MAINTENANCE FORECASTING

WHEN YOU CAN ACCURATELY MANAGE COMPLEX COUNTERS, DYNAMIC COMPONENTS, AND VARIABLE CYCLES, THEN BEING ABLE TO FORECAST YOUR MAINTENANCE IS THAT MUCH EASIER. THE SOFTWARE PROVIDES THE ABILITY TO RECORD DAILY USAGE FOR ALL OF THE VARIOUS HOURS AND CYCLES.

1. EASE OF MAINTAINING COMPLIANCE

BY MANAGING COMPLEX COUNTERS WITHIN WINAIR, THERE IS NO NEED FOR TINKERING WITH EXTERNAL CALCULATIONS, NOR IS THERE ANY REQUIREMENT FOR TRACKING COMPLEX FORMULAS AIRCRAFT ON A SPREADSHEET. EVERYTHING THAT YOU NEED TO DO CAN BE ACCOMPLISHED WITHIN THE SYSTEM. THIS MAKES COMPLIANCE EASY TO MAINTAIN WITH WINAIR.

"WinAir Version 7 goes above and beyond our requirements for powerful browser-based software, with comprehensive reporting functionality, and the ability to manage the complex variables associated with helicopter operations."

• Harvey Wolfe, Director of Maintenance, Delta Helicopters Ltd.
