

PART SALES PACKAGE

WinAir Part Sales is a fully-featured sales application that enables you to manage the entire sales process for outright and exchange part sales, from quote and order generation through to shipping parts, receiving cores, and invoicing your client. Through full integration with our Inventory and Accounting products, our Part Sales package allows you to streamline your operation and easily track the status of outstanding orders until they are fulfilled.

Our Approach

WinAir has evolved our software to meet our clients' ever-changing needs. We exemplify industry standards and build in best practices. We are focused on continued client success and dedicated to user satisfaction.

MULTIPLE PRICING METHODS

Use our pricing calculator tool to determine pricing based on your cost, vendor pricing, or a custom input, with the ability to apply pre-defined or custom markups.

- ✓ Sales Quotes
- ✓ Sales Orders
- ✓ Sales Packing Slips
- ✓ Sales Invoices

APPROVE QUOTES INTERNALLY

Utilizing our built-in approval feature, allow draft quotes to be prepared by junior sales staff and have them approved by designated personnel prior to sending to a client.

- ✓ Sales Returns
- ✓ Exchange Cores
- ✓ Pricing History
- ✓ Part Procurement

RESERVE PARTS

Reserve specific serialized parts for clients directly from the sales interface, ensuring your clients get the exact parts they desire.

- ✓ Parts Issuing
- ✓ Multi-currency Capability
- ✓ Drop-shipping
- ✓ Commercial Invoices
