

# AIRCRAFT SERVICES

Trust in over 30 years of aviation industry experience to help you get a head start on your **WinAir** implementation. Our Aircraft Services team provides turn-key solutions for translating manufacturer **maintenance** program requirements into accurate electronic templates, and migration of **aircraft** specific data directly into **WinAir**.

## MAINTENANCE SCHEDULE TEMPLATES

*Aircraft OEM Maintenance Program Templates built in WinAir to reflect industry standard requirements.*

## AIRCRAFT SETUP & DATA MIGRATION

*Aircraft specific data applied to Maintenance Program Templates built in WinAir.*

## OUR APPROACH

Regardless of your budget or resources, we offer comprehensive solutions designed to meet the needs of your organization through a tiered migration strategy.

### FULL SERVICE

**Busy and unable to dedicate time and resources to internal manual tasks?**

Capitalize on the experience of our Aircraft Services team to transition your fleet into WinAir allowing your team to focus fully on implementing WinAir in your operation.

#### BENEFITS

- » Reduced Transition Time
- » Quality Assurance
- » Error Checking & Validation
- » Aviation Industry Expertise

### IMPORT UTILITY SERVICE

**Trust your data but have limited resources or budget?**

Benefit from our import utility. Provide quality data in specific, requested electronic format. We will import all of your data directly into the WinAir database.

#### BENEFITS

- » Time Saving Assistance
- » Reduction in Cost
- » Control of Data

### SELF SERVICE

**Take advantage of Implementation cost savings with available internal resources.**

Participate in training where you will learn how to enter your data directly into WinAir's interface using available in-house resources.

#### BENEFITS

- » Full Control of Time Lines
- » Utilize Available In-House Resources
- » Save Money

» **LEARN MORE ABOUT HOW YOUR OPERATION WILL BENEFIT FROM WINAIR**
